The Company earned gross profit of Rs. 26.212 million as compared to gross profit of 27.404 million in the previous year. The increase in turnover as compared to previous year is due to increase in the prices of finished goods. The financial results of the Company for the year under review are as under:

	<u>RUPEES IN MILLION</u>
Sales	801.296
Cost of Sales	775.084
Gross Profit	26.212

The Company earned profit before taxation of Rs. 9.430 million as compared to profit of Rs. 13.670 million in the last year and profit after taxation of Rs. 0.820 million as compared to profit of Rs. 5.456 million. The decrease in profitability is due to decrease in production and increase in cost of sales mainly in salary & wages, raw material and power charges. Due to excessive electric shutdown the Company has closed one shift throughout the year and hence could not utilized 100% capacity. During the year the Company could not make payment of current portion of loan from Directors of Rs. 61.850 million due to financial constraints.

The auditors have drawn attention to Note 1.2 in the financial statements that the Company's current liabilities exceeded its current assets by Rs. 25.027 million. Our risk and opportunity management encompass an effective framework to conduct business in a well-controlled environment where risk is mitigated and opportunities are availed. Each risk and opportunity is properly weighted and considered before making any choice. Decisions are formulated only if opportunities outweigh risks. Following is the summary of risks and strategies to mitigate those risks:

Business Risks

The Company faces a number of following business risks:

There is always a risk of upward shift in the polyester prices in local and international markets. The Company mitigates this risk by the procurement of the polyester in bulk depending upon the availability of funds.

Energy Availability and Cost

The rising cost and un-availability of energy i.e. electricity shortage is a major threat to manufacturing industry. The Company is unable to achieve the installed capacity due to excessive electric shut down. The Company is also unable to mitigate this risk as it is beyond the Company's control.

Financial Risks

The Company faces the following financial risks:

Credit risk

The Company's credit exposure to credit risk relates to its trade debts. This risk is mitigated by the fact that majority of our customers have a strong financial standing and we have a long standing business relationship with all our customers. We do not expect nonperformance by our customers; hence, the credit risk is minimal.

Liquidity risk

It is at the minimum due to the availability of funds from the sponsor's Directors in order to meet liabilities when due under both normal and stressed conditions.

Capital risk

When managing capital, it is our objective to safeguard the Company's ability to continue as a going concern in order to generate profits for providing returns for shareholders and benefits to other.

Price Risk of Financial Instruments

The Company is not exposed to price risk since there are no financial instruments whose fair value or future cash flow will fluctuate because of changes in market prices.

- ۳۔ جناب عظیم افضل ہاشمی

ڈائریکٹران معاوضہ کی اہم خصوصیات :- بورڈ ڈائریکٹران نے ایچ آر اینڈ آر کمیٹی کی جانب سے پیش کردہ انتظامی اور غیر انتظامی ڈائریکٹران کے لیے ایک باضابطہ پالیسی کی منظوری دی ہے۔ جیسا کہ پالیسی کے مطابق کمپنی اپنے آزاد اور غیر انتظامی ڈائریکٹران بورڈ اور کمیٹی کے اجلاس میں شرکت کی فیس کے علاوہ اور کوئی معاوضہ ادا نہیں کرے گی۔ انتظامی اور غیر انتظامی ڈائریکٹران کے مجموعی معاوضہ کی تفصیلات سالانہ رپورٹ کے ساتھ منسلک ہے۔

خطرات اور مواقع :- کمپنی معمول کے مطابق کاروبار میں خطرات کا مقابلہ کرتی ہے اور بہتر مواقع فراہم کرتی ہے۔ مسابقتی رہنے کے لئے اور پائیدار کامیابی کو یقینی بنانے کے لیے خطرات مول لینا بہت اہم ہے۔ ہمارا خطرے اور مواقع کا انتظام ایک مؤثر فریم ورک کا احاطہ کرتا ہے جس میں کاروبار کو بہتر ماحول میں منظم کیا جاسکتا ہے، خطرے کو کم کیا جاسکتا ہے اور بہتر مواقع حاصل ہوتے ہیں۔ کسی بھی انتخاب سے پہلے ہر خطرہ اور موقع کی مناسب طریقہ سے جانچ کی جاتی ہے۔ فیصلے صرف اس صورت میں لیے جاتے ہیں اگر مواقع خطرات سے زیادہ ہوں۔

کاروباری خطرات:۔ کمپنی کو مندرجہ ذیل کاروباری خطرات کا سامنا ہے

پولیسٹریک فراہمی اور قیمت:۔ مقامی اور بین الاقوامی مارکیٹوں میں پولیسٹریک قیمتوں میں اضافہ ایک خطرہ ہے۔ کمپنی رقم کی دستیابی کو دیکھتے ہوئے بڑی مقدار میں پولیسٹریک خرید کر اس خطرے کو کم کرتی ہے۔

طلب اور قیمت:۔ ہمیں مقامی مارکیٹ میں اپنی مصنوعات کی طلب میں کمی اور مقابلہ کے خطرے کا سامنا ہے۔ ہم معیار پر سمجھوتہ کیے بغیر صارفین کے ساتھ مضبوط تعلقات استوار کر کے، اپنے گاہکوں کی بنیاد کو وسعت دے کر، مارکیٹ کو بروقت ترسیل فراہم کر کے اس خطرے کو کم کرتے ہیں۔

توانائی کی دستیابی اور اخراجات:۔ توانائی کی بڑھتی ہوئی لاگت، بجلی کی عدم دستیابی مینوفیکچرنگ کی صنعت کے لئے ایک بڑا خطرہ ہے۔ بجلی کی بندش کی وجہ سے کمپنی نصب صلاحیت کو حاصل نہیں کر سکتی۔ جیسا کہ یہ کمپنی کے اختیار میں نہیں ہے اس لئے کمپنی اس خطرے کو کم نہیں کر سکتی۔

مالیاتی خطرات: کمپنی کو مندرجہ ذیل مالیاتی خطرات کا سامنا ہے،

کریڈیٹ رسک: کمپنی کا کریڈیٹ رسک اور اسکے تجارتی قرضوں سے متعلق نقصانات کا خطرہ اس کے ٹریڈ میس سے متعلق ہے۔ یہ خطرہ اس حقیقت سے کم کیا جاتا ہے کہ ہمارے صارفین کی اکثریت ایک مضبوط مالی حیثیت رکھتے ہیں اور ہمارا اپنے گاہکوں کے ساتھ ایک طویل عرصے سے کاروباری تعلق ہے۔ ہمیں اپنے صارفین سے غیر کارکردگی کی توقع نہیں ہے، اس وجہ سے، کریڈیٹ رسک کم سے کم ہے۔

لیکوڈیٹی رسک: پاسپورڈائزیکیشن سے فنڈز کی دستیابی کی وجہ سے عام اور مشکل حالات میں یہ خطرہ کم سے کم ہے۔

سرمایہ کا خطرہ: سرمایہ کے انتظام کے وقت ہمارا مقصد حصص یافتگان اور دیگر حصہ داران کو منافع مہیا کرنے کے لئے کمپنی کی کاروباری صلاحیت کی حفاظت کرنا ہوتا ہے۔

مالی آلات میں قیمت کا خطرہ: کمپنی کو قیمت کا کوئی خطرہ نہیں ہے کیونکہ کمپنی کے پاس ایسے کوئی مالی آلات نہیں ہیں جن کی قیمت یا مستقبل کا نقد بہاؤ مارکیٹ میں تبدیلی کی وجہ سے متاثر ہوں۔

کارپوریٹ گورننس: کمپنی کے ڈائریکٹرانہائی مسرت کے ساتھ آپ کو آگاہ کرتے ہیں کہ:

A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions and also ensure compliance with the requirements of section 208 of the Companies Act, 2017. Our responsibilities under those standards are further described in the Auditors Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

These conditions, along with other matters as set forth in Note 1.2, indicate the existence of material uncertainty which may cast doubt about the Company's ability to continue as going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information Other than the Financial Statements and Auditors Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditors report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors is responsible for overseeing the Company's financial reporting process.

Auditors Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, *Patel*

as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows

together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;

- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and

5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the presentation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

5.1 Property, plant and equipment

a) Operating fixed assets

Operating fixed assets except for freehold land, building and plant and machinery are stated at cost less accumulated depreciation or impairment, if any. Freehold land, building and plant and machinery are stated at cost/revalued amount less accumulated depreciation or impairment, if any.

Depreciation is charged on the basis of written down value method whereby cost or revalued amount of an asset is written off over its useful life without taking into account any residual value. Full month's depreciation is charged on addition, while no depreciation is charged in the month of disposal or deletion of assets.

Major renewals and repairs are capitalized and the assets so replaced are retired. Minor renewals or replacement, maintenance and repairs are charged to income as and when incurred. Gains or losses on disposal of property, plant and equipment are accounted for as profit or loss for the year.

Amount equivalent to incremental depreciation charged on revalued assets is transferred from surplus on revaluation of building and plant and machinery net of deferred taxation to retained earnings (unappropriated profit).

The assets' residual value and useful lives are reviewed, and adjusted if significant, at each balance sheet date.

Disposal of assets is recognized when significant risks and reward incidental to the ownership have been transferred to buyers. Gain and losses on disposal are determined by comparing the proceeds with the carrying amount and are recognized in the profit and loss accounts.

b) Revaluation surplus on property, plant and equipment

Any revaluation increase arising on the revaluation of land, buildings and plant and machinery is recognized in other comprehensive income and presented as a separate component of equity as "Revaluation surplus on property, plant and equipment", except to the extent that it reverses a revaluation decrease for the same asset previously recognized in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. Any decrease in carrying amount arising on the revaluation of land, buildings and plant and machinery is charged to profit or loss to the extent that it exceeds the balance, if any, held in the revaluation surplus on property, plant and equipment relating to a previous revaluation of that asset. The revaluation reserve is not available for distribution to the Company's shareholders. The surplus on revaluation buildings and plant and machinery to the extent of incremental depreciation charged (net of deferred tax) is transferred to unappropriated profit.

5.2 Impairment losses

The carrying amount of the Company's non-financial assets are reviewed at each statement of financial position date to determine whether there is any indication of impairment. If such indications exist, the assets' recoverable amounts are estimated in order to determine the extent of impairment loss, if any.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that is largely independent from other assets and group. Impairment losses are recognized as expense in profit and loss account. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Where an impairment loss is recognized, the depreciation charge is adjusted in the future periods to allocate the asset's revised carrying amount over its estimated useful life.

Impaired assets are reviewed for possible reversal of the impairment at each statement of financial position date. Reversal of the impairment losses are restricted to the extent that asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment losses had been recognized. A reversal of impairment loss is recognized in the statement of profit and loss.

5.3 Stores, spares and loose tools

Stores and spares are stated at cost less provision for slow moving and obsolete items. Cost is determined by using the moving average method. Items in transit are valued at cost comprising invoice value plus other charges incurred thereon.

Spare parts of capital nature which can be used only in connection with an item of property, plant and equipment are classified as tangible fixed assets under "Plant and machinery" category and are depreciated over a time period not exceeding the useful life of the related assets.

The Company reviews the carrying amount of stores and spares on a periodic basis and provision is made for slow moving and obsolescence on periodic basis.

5.4 Stock in trade

Stock in trade, except stock in transit, are valued at lower of cost and net realizable value. Cost is determined as follows:

- Raw materials - at moving average method except stock in transit
- Work in process - at cost of material plus proportionate production overheads
- Finished goods - at cost of material as above plus proportionate production overheads

Net realizable value signifies the estimated selling price in the ordinary course of business less the estimated cost of completion and costs necessary to be incurred in order to make the sale.

Stock in transit is valued at cost comprising invoice value plus other charges thereon.

5.5 Trade receivables

These are classified at amortized cost and are initially recognized when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery. Actual credit loss experience over past years is used to base the calculation of expected credit loss.

5.6 Loans and advances

These are classified at amortized cost and are initially recognized when they are originated and measured at fair value of consideration receivable. These assets are written off when there is no reasonable expectation of recovery. Actual credit loss experience over past years is used to base the calculation of expected credit loss.

5.7 Cash and bank balances

Cash in hand and at banks are carried at nominal amounts which is the fair value of cash and bank balances.

5.8 Share capital

Share capital is classified as equity and recognized at the face value. Incremental costs directly attributable to the issue of new shares are shown as a deduction in equity.

5.9 Staff retirement benefits

The Company operates an unfunded gratuity scheme for all its permanent employees who attain the minimum qualification period for entitlement to gratuity. Contributions are made based on actuarial recommendations and in line with the provisions of the Income Tax Ordinance, 2001. The most recent actuarial valuation is carried out at June 30, 2023 using the projected unit credit method (refer note 17). Actuarial gains and losses are recognized as income or expense in the other comprehensive income. The Company recognizes expense in accordance with IAS 19 "Employee Benefits".

5.10 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current

Provision for current taxation is based on taxable income on current rates of taxation after taking into account the rebates and tax credits available, if any, or one percent of turnover, whichever is higher in accordance with the provisions of the Income Tax Ordinance, 2001.

As above.

The Company recognizes tax liabilities for pending tax assessments using estimates based on expert opinion obtained from tax/legal advisors. Differences, if any, between the income tax provision and the tax liability finally determined is recorded when such liability is so determined.

Deferred

Deferred tax is computed using the balance sheet liability method providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the liability is settled based on tax rates that have been enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profit will be available and the credits can be utilized.

Further, the Company has recognized the deferred tax liability on surplus on revaluation of fixed assets which has been adjusted against the related surplus.

Prior years

The taxation charge for prior years represents adjustments to the tax charge relating to prior years, arising from assessments and changes in estimates made during the current year, except otherwise stated.

5.11 Borrowing

Loans and borrowings are recorded at the amortized cost unless classified as fair value through profit and loss they are initially recognized when they are received and measured at amortized cost which is fair value of consideration . Mark up, interest and other borrowing costs are charged to profit and loss in the period in which they are incurred.

Borrowing cost on long term finances which are specifically obtained for the acquisition of qualifying assets are capitalized up to the date of commencement of commercial production on the respective assets. All other borrowing costs are charged to profit and loss account in the period in which these are incurred.

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in the future for the goods and services received, whether or not billed to the Company.

please

5.13 Provisions

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. Provisions are determined by discounting future cash flows at appropriate discount rate where ever required. Provisions are reviewed at each balance sheet date and adjusted to reflect current best estimate.

5.14 Leases

Leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the statement of profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. Payments associated with leases with a lease term of 12 months or less and leases of low-value assets are recognized as an expense in the statement of profit or loss.

5.15 Revenue recognition

5.20 Financial instruments

Financial assets

The Company classifies its financial assets in the following categories: at fair value through profit or loss, fair value through other comprehensive income and amortized cost. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition. All the financial assets of the Company as at statement of financial position date are carried at amortized cost.

Amortized cost

A financial asset is measured at amortized cost if it meets both the following conditions and is not designated as at fair value through profit or loss:

- (i) it is held with in a business model whose objective is to hold assets to collect contractual cash flows; and
- (ii) its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Equity Investments at FVOCI

These assets are initially measured at cost plus transaction cost that are directly attributable to its acquisition. Subsequently, these are measured at fair value. Dividends are recognized as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to the statement of profit or loss.

Below.

Financial assets at FVTPL

These assets are initially recognized at cost. Subsequently, these are measured at fair value. Net gains and losses, including any interest / markup or dividend income, are recognized in profit or loss.

Impairment

The Company recognizes loss allowance for Expected Credit Losses (ECLs) on financial assets measured at amortized cost and contract assets. The Company measures loss allowance at an amount equal to lifetime ECLs.

Lifetime ECLs are those that result from all possible default events over the expected life of a financial instrument. The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

At each reporting date, the Company assesses whether the financial assets carried at amortized cost are credit-impaired. A financial asset is credit-impaired when one or more events that have detrimental impact on the estimated future cash flows of the financial assets have occurred.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

Financial liabilities

All financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instrument.

Recognition and measurement

All financial assets and liabilities are initially measured at cost, which is the fair value of the consideration given and received respectively. These financial assets and liabilities are subsequently measured at fair value, amortized cost or cost, as the case may be. The particular measurement methods adopted are disclosed in the individual policy statements associated with each item.

Derecognition

Below

5.22 Foreign currency translation

5.24 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the Company's other components. The Company has only one reportable segment.

5.25 Significant accounting judgments and critical accounting estimates / assumptions

The preparation of financial statements in conformity with approved accounting standards requires the management to:-

- exercise its judgment in process of applying the Company's accounting policies, and
- use of certain critical accounting estimates and assumptions concerning the future.

Judgments and assumptions have been required by the management in applying the Company's accounting policies in many areas. Actual results may differ from estimates calculated using these judgments and assumptions.

The areas involving critical accounting estimates and significant assumptions concerning the future are discussed below:-
below

5.25.1 Provision for inventory obsolescence

The Company reviews the carrying amounts of stores, spares and loose tools and stock in trade on regular basis and provision is made for obsolescence if there is any change in usage pattern and physical form of related stores, spares and loose tools and stock in trade.

5.25.2 Income taxes

The Company takes into account the current income tax law and decisions taken by appellate authorities. Instances where the Company's view differs from the view taken by the income tax department at the assessment stage and where the Company considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

5.25.3 Property, plant and equipment

The estimates for revalued amounts, if any, of different classes of property, plant and equipment, are based on valuation performed by external professional valuers and recommendation of technical teams of the Company. The said recommendations also include estimates with respect to residual values and useful lives. Further, the Company reviews the value of the assets for possible impairment on an annual basis. Any change in these estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with corresponding effect on the depreciation charge and impairment loss.

5.25.4 Stores and spares

Management has made estimates for realizable amount of slow moving and obsolete stores and spares items to determine provision for slow moving and obsolete items. Any future change in the estimated realizable amounts might affect carrying amount of stores and spares with corresponding effect on amounts recognized in profit and loss account as provision / reversal.

5.25.5 Defined benefits plan

The management has exercised judgment in applying Company's accounting policies for classification of Post Employment Benefits as Defined Benefits Plan (refer note 5.9) that have the most significant effects on the amount recognized in the financial statements.

As per

5.25.6 Expected credit losses

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. Company uses a provision matrix to calculate ECLs for trade receivables.

The provision matrix is initially based on the Company's historical observed default rates and forecast of economic conditions that are expected to deteriorate over the next year which can lead to an increased number of defaults. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analyzed.

5.25.7 Contingencies

The Company reviews the status of all the legal cases on regular basis. Based on expected outcome and lawyers' judgments, appropriate disclosure or provision is made.

17.1 Staff retirement benefits - gratuity

General description

The scheme provides for terminal benefits for all its permanent employees who attain the minimum qualifying period at varying percentages of last drawn gross salary. The percentage depends on the number of service years with the Company. Annual charge is based on actuarial valuation carried out as at June 30, 2023 using the Projected Unit Credit Method.

The Company faces the following risks on account of gratuity:

Final salary risk - The risk that the final salary at the time of cessation of service is greater than what the Company has assumed. Since the benefit is calculated on the final salary, the benefit amount would also increase proportionately.

Discount rate fluctuation - The plan liabilities are calculated using a discount rate set with reference to corporate bond yields. A decrease in corporate bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the current plans' bond holdings.

Mortality rate risk - The present value of the defined benefit liability is calculated by reference to the best estimate of the mortality of plan participants during employment. An improvement in the mortality rates of the participants may increase/ decrease the liability and vice versa depending on the age-service distribution of the exiting employees.

Principal actuarial assumptions

23 CONTINGENCIES AND COMMITMENTS

23.1 Contingencies

Deferred electricity bill

From July 2022 onwards, Islamabad Electric Supply Company Limited (IESCO) is imposing a levy in monthly electricity bills of the company in respect of Quarterly Tariff Adjustment, Financing Cost (FC) surcharge and Fuel Price Adjustment (FPA). The balance under this levy is accumulated to Rs. 7.650 million as at year end June 30, 2023. Being aggrieved, the Company has filed a stay petition against the said levy in the Rawalpindi bench of Lahore High Court. 36 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

36.1 The Company's objective in managing risks is the creation and protection of share holders' value. Risk is inherent in the Company's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Company's continuing profitability. The Company is exposed to credit risk, liquidity risk and market risk (which includes currency risk, interest rate risk and price risk) arising from the financial instruments it holds.

The Company finances its operations through equity, borrowings and management of working capital with a view to maintaining an appropriate mix between various sources of finance to minimize risk.

36.2 Credit risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counter parties fail to perform as contracted and arises principally from trade and other receivables. The Company's policy is to enter into financial contracts with reputable counter parties in accordance with the internal guidelines and regulatory requirements.

The exposure to banks is managed by dealing with variety of major banks and monitoring exposure limits on continuous basis. The ratings of banks range from A to AAA.

Concentration of credit risk

Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligation to be similarly affected by the changes in economic, political or other conditions. The Company believes that it is not exposed to major concentration of credit risk.

Impaired assets

During the year no assets have been impaired.

36.3 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stress conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The following are the contractual maturities of financial liabilities, including interest payments and excluding the impact of netting agreements, if any:

36.4 Market risk

Market risk is the risk that changes in market price, such as foreign exchange rates, interest rates and equity prices will effect the Company's income or the value of its holdings of financial instruments.

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arise in financial instruments that are denominated in foreign currencies i.e. in a currency other than the functional currency in which they are measured.

Presently the Company is not exposed to foreign currency risk.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Majority of the interest rate exposure arises from long term loans and short borrowings. At the statement of financial position date, the interest rate profile of the Company's interest bearing financial instruments is as follows:

	2023 Rates In Percent	2023 Carrying amount ----- Rupees -----	2022
Financial assets			
Bank balances	0.17 to 0.25	12,109,797	5,818,070
<i>Assets</i>			

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have increase / (decrease) profit for the year by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for the prior year.

	Profit and loss (post tax)	
	100 bps increase	100 bps decrease
	----- Rupees -----	
As at June 30, 2023		
Cash flow sensitivity - Variable rate financial assets	85,980	(85,980)
As at June 30, 2022		
Cash flow sensitivity - Variable rate financial assets	41,308	(41,308)

The sensitivity analysis prepared is not necessarily indicative of the effects on profit for the year and assets / liabilities of the Company.

(iii) Other price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Company is exposed to price risk, because of the investments held by the Company classified as investment at fair value through profit or loss of Rs. 503,965 (2022: nil).

37 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the Company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities,
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset either directly that is, derived from prices.
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unadjusted) inputs.

pasca

Transfer between levels of the fair value hierarchy are recognized at the end of the reporting period during which the changes have occurred.

As of the reporting date, financial instruments of the Company includes financial instruments carried at fair value through profit and loss only.

The carrying values of all other financial assets and liabilities reflected in the financial statements approximate their fair values.

- 37.1 The Company has revalued its freehold land, buildings and plant and machinery on December 31, 2022. Fair value of property plant and equipment are based on the valuations carried out by an independent valuer M/s Asrem (Private) Limited on the basis of market value.
- 37.2 Fair value of land and building are based on assumptions considered to be level 2 in the fair value hierarchy due to significant observable inputs used in the valuation, while fair value of plant and machinery are considered to be level 3 in the fair value hierarchy due to significant unobservable inputs used in the valuation.

Valuation techniques used to derive level 2 fair values - Land and Building

Fair value of land and building has been derived using a sales comparison approach. Sale prices of comparable land and buildings in close proximity are adjusted for differences in key attributes such as location and size of the property. Moreover value of building also depends upon the type of construction, age and quality. The most significant input in this valuation approach is price / rate per square foot in particular locality. This valuation is considered to be level 2 in fair value hierarchy due to significant observable inputs used in the valuation.

Valuation techniques used to derive level 3 fair values - Plant and Machinery

In the absence of current prices in an active market, the fair value is determined by taking into account the following factors:

- Make, model, country of origin and etc.;
- Operational capacity;
- Present physical condition;
- Resale prospects; and
- Obsolescence.

The valuation is considered to be level 3 in the fair value hierarchy due to the above unobservable inputs used in the valuation. Most significant input in this valuation is the current replacement cost which is adjusted for factors above.

Below.

37.3 A reconciliation from opening balances to closing balances of fair value measurements categorized in level 3 is provided below:

	2023 Rupees	2022 Rupees
Opening balance (level 3 recurring fair values)	25,027,750	22,270,848

There were no transfers between levels 2 and 3 for recurring fair value measurements during the year.
